THE JUDGESHIP.

The Report of Majorities for the Candidates for Circuit Judge—Mr. Bennett in the Lead.

The following majorities have been received on the judgeship. Returns come in slowly from Green and Jefferson counties, which make it impossible to correctly determine what majority Mr. Bennett will receive. But sufficient returns are at hand to warrant the statement that he is elected by a large majority:

- Watertown—125 majority for Conger.
- Jefferson—146 majority for Bennett.
- Janesville—547 majority for Bennett.
- Beloit—529 majority for Conger.
- Plymouth—40 majority for Conger.
- Center—9 majority for Conger.
- Turtle—3 majority for Conger.
- Evansville—147 majority for Bennett.
- Magnolia—92 majority for Bennett.
- Spring Valley—85 majority for Bennett.
- Milton—122 majority for Bennett.
- Johnstown—41 majority for Bennett.
- Harmony—39 majority for Bennett.
- Albany—138 majority for Bennett.
- Clinton—30 majority for Bennett.
- Brodhead—138 majority for Bennett.
- Mouroe—310 majority for Bennett.
- Fort Atkinson—359 majority for Bennett.
- Lima—35 majority for Bennett.
- Avon—23 majority for Conger.
- Janesville town—9 majority for Conger.
- La Prairie—30 majority for Bennett.

The vote so far gives Mr. Bennett nearly 1,700 majority.

UNSIGNED.

WASHINGTON, April 4.—The President has for once done the expected. His veto of the anti-Chinese bill was read to the Senate to-day and will be discussed by the Senate to-morrow. He completed his veto message before the Cabinet, met, and was, therefore, able to read it to his advisers when they had assembled at the council table at noon. It was written by himself and embodies his own views as informed and modified by the suggestions of the Secretary of State and the Attorney General. The Cabinet almost unanimously approved the message. It was sent to the Senate as soon as the Cabinet adjourned.

"When I publicly testified that I had been cured of a terrible skin humor by the Caticura Remedies, I did so that others might be cured, and do not regret the time given to answering questions.—Hon. Wm. Taylor, Boston.

MILWAUKEE POLITICS.

MILWAUKEE, April 4.—John M. Stowell, the Fusion candidate for mayor, was elected to-day, much to the surprise of even those directly interested. Albert B. Gilfus, Republican, was re-elected city treasurer. Henry Smith and P. J. Somers, Fusion nominees for controller and city attorney, were elected. Stowell's majority for mayor over Ludington is about 2,300. The solid Democratic vote, added to that of the Trades Assembly, produced this result. The workmen have never before been known to give so much attention to politics, and the novelty of a labor ticket elicited their attention and secured their support. The common council will have a working Republican majority.

The total vote of the city was 16,900, which is the largest ever cast in a local election. A year ago the vote was 12,900, and two years ago it was 14,500. The large vote attests the activity of the

workmen, who formed the pivotal factor in the contest.

A SAD SCENE.

St. JOSEPH, Mo., April 4.—Mrs. Samuels mother of the dead outlaw, arrived here at 9:45 this morning from her home in Clay county. She is a large woman 57 years old, with black hair, well sprinkled with gray. She was incredulous upon her arrival about the dead man being her son Jesse, and was not fully convinced until she was driven to his late residence, where she met the widow, who embraced the old lady and both manifested great emotion. Mrs. Samuels, accompanied by Mrs. James and her children, was driven to the undertaker's where they viewed the body of Jesse, and the scene was very affecting, the mother, wife, and children all joining in lamentation. Mrs. Samuels said the body was that of her son, and in great emotion exclaimed: "Would to God that it was not." The mother re-entered a carriage and was driven to the courtroom, where she was to testify in the Coroner's inquest then in progress.

BERNHARDT MARRIED.

LONDON, Eng., April 4.—Sarah Bernhardt and a Greek gentleman of position, named Damalya, were married in St. Andrews church, Wells. Sarah will continue her theatrical career.

Damalya and bride perform here in May. Damalya is a fine-looking, middle-aged man, said to be tolerably rich, and his wife is worth 1,200,000 francs. Bernhardt gave no previous notice of the wedding. At 8 o'clock this morning a gentleman called at the church and said he desired to make arrangements for a marriage. The official informed him a license was necessary. The gentleman left the church to procure the license, and having obtained it, returned, accompanied by Bernhardt. The latter wore a close-fitting seal skin coat, trimmed with fur. A French lady and gentleman and the officials of the church were the only witnesses present.

THE CAPITOL EXTENSION.

MADISON, April 4.—The commissioners for the enlargement of the State House met this evening for the first time and organized by electing Governor Rusk president, and the Hon. N. B. Vauslyke secretary. After informally discussing the matter the commissioners adjourned until morning, when the ground will be paced off and some definite general plan decided on. The building will be commenced as soon as possible. Governor Rusk says that Governors Crittenden, of Missouri, and Foster, of Ohio, have both agreed to pay him a friendly visit here next summer.

MADISON ELECTION.

MADISON, April 4.—The Madison city election to-day resulted in almost a total Democratic sweep. James Conklin (Democrat) was re-elected mayor by 908 majority over Dr. A. J. Ward, (Republican). Conklin carried every ward in the city. W. A. Booth (Democrat) beat F. C. Pyncheon (Republican) for treasurer by 243 majority, carrying every ward but the fourth.

\$500 LICENSE AT ELGIN.

ELGIN, Ill., April 4.—The City Council at a meeting held last evening decided by a unanimous vote to continue the present liquor license fee of \$500. This high figure has been successfully sustained for three years, but after the test it has stood has gradually so grown in public favor as to cease to be the question of contest at municipal elections. Eighteen reputable saloons are now being run under this license.

A VETERAN watchmaker at Vourvy, Switzerland, claims to have invented a process by which watches will run for years without winding up. A sealed box containing two watches intrusted to the municipal authorities on the 19th of January, 1879, has just been opened, and the watches were found to be going.

The panther in India, when once he has established a character for cannibalism, is far more fell and dangerous than a man-eating tiger. He is more ferocious and more courageous when attacked. He never eats the bodies of his victims, but merely laps the blood from the throat. So says Capt. Forsyth, of the Bengal Staff Corps.

In a few hours a pitcher of water will absorb all the respired gases in the room, the air of which will have become much purer, but the water utterly filthy. The colder the water is the greater the capacity to contain these gases. At ordinary temperature a pint of water will absorb a pint of carbonic acid gas and several pints of ammonia. The capacity is nearly doubled by reducing the water to the temperature of ice. Hence water kept in a room awhile is unfit for use. Impure water is more injurious than impure air.

A ROYAL Bengal tiger has been seen in his native jungles in hot flight from a pack of wild dogs. These animals are small and make no noise, but they are fierce and determined. When once a pack of them attack an animal, that animal's doom is sealed; they never leave it. They will dog their prey for days if need be, and run it down exhausted, and if it turns to fight, they go in fearlessly and by their numbers win. All beasts of the forest dread the wild dog, from which there is no escape by speed, artifice or battle.

The speed of birds offers great variety. When the light does not exceed thirty miles an hour they are considered slow flyers. The speed of the swallow is computed at ninety miles, the hawk 150 miles, while that of the swift is said to attain the astounding velocity of 180 miles an hour. The endurance displayed by birds upon the wing is wonderful, and many instances are recorded which almost exceed belief. In the time of Henry IV. of France there was a falcon which became famous in Europe by flying from Fontainebleau to Malta, 1,350 miles in twenty-four hours. But without going so far back we may on a summer's afternoon watch a flock of swallows for an hour without detecting an interval of rest. Their skimming, busy, rapid wings never seem to tire. What strength of flight, too, must be required in those annual migrations which bring the winter water fowl across the North sea to England from Scandinavia, and the summer visitors, nightingales, and swallows, from Southern Europe or Africa even. Long feats of flight are performed by some others, such as the frigate or man-of-war bird, which is sometimes found hunting for food in the Atlantic more than 1,000 miles from shore. Yet it never seems to tire or to seek rest either on the surface of the sea or in the rigging of a ship, and it is not known to visit the land except at the return of the breeding season.

The famous big trees of California, 350 to 400 feet high and proportionately thick, are on public land, subject to entry at \$1.25 an acre, and may be bought up and destroyed by whoever wishes to make use of them. The bark has already been peeled from the butt of one for a showman, who sets it up at fairs as an exhibition, and another has been cut down in order to make a dancing platform of the stump.

The Atlanta (Ga.) Gambling in Grain.

The language of the business exchanges of the country, as well as the actual method pursued in effecting transactions, especially of a speculative character, is to most persons a closed book. To any one visiting the Produce Exchange, for instance, and listening to the jargon by means of which millions of bushels of grain change hands, the scene is one of chaos, and the quotations shouted out at the top of the brokers' lungs are wholly unmeaning. The object of the "call" is also somewhat of a mystery to an outsider. A prominent broker gave a reporter of the *Evening Post* some information this morning as to all these points, which may prove to be of interest to others:

"The Produce Exchange," said this gentleman, is a commercial club, in the rooms of which most of the wholesale produce business of the city is done. Of course, there is nothing to prevent a man who is not a member of the Exchange going from office to office and selling or buying as many bushels of wheat or barrels of flour as he wishes, but the price established at the Exchange regulates the market, and the fact remains that more than nine-tenths of the business is done on 'Change. The membership of the Exchange has recently been limited to 3,000 members, the present building has long been too small. Twice a day the members of the Exchange meet at the "call," which is the technical name for an auction, held solely for the purpose of establishing a recognized or official price for grain and produce. One of the employees of the Exchange officiates as auctioneer and calls out the leading staples, offering to sell or buy, according to the wishes of the members. The auctioneer asks and receives bids upon grain, the highest bidder buying the lot. The price received is the quotation for that call—the afternoon or morning call. This quotation does not govern the price at which members may buy and sell between themselves, but officially recognized a quotation which can be telegraphed all over the country. The amount of grain publicly sold and bought on call does not average one-fifth of the business of the day, but the transactions off call are enormous, 800,000 bushels of wheat having recently been sold in one lot.

As the present business of the Produce Exchange is now about one-twentieth, or even less, legitimate buying and selling for purposes of export or consumption, and the rest pure speculation, the methods of doing business are far more complicated than they were before speculations in futures were introduced. The expressions "March wheat" or "April wheat" mean wheat delivered by the seller to the buyer during the month of March or April, the grade being established and known as No. 2 red winter wheat. "Cash" wheat means that is actually in market, and the speculative element is largely absent from dealings in it. As no one knows what the price of wheat may be next month, buying or selling "March wheat" is more or less of a gambling operation. It follows that the ultimate value of "June wheat" is still a most uncertain matter. Wheat may now be bought on the Exchange for any month's delivery and of late year wheat has become a feature of the business—that is, you sell wheat to be delivered at any place during the whole year. Thus a man buying 8,000 bushels "March wheat" at \$1.33 a bushel agrees to receive this wheat at any time during March at the price named; and the seller agrees to deliver it some time during that month. All transactions are made upon the basis of 8,000 bushels or multiples of that quantity. Thus thousands of bushels of wheat are sold long before it is grown or even sown. Chicago has heretofore held almost a monopoly of the speculative business in grain, their dealings averaging from five to thirty millions of bushels a day while we consider five millions a heavy day's business.

"If speculators who buy or sell today April wheat had to wait until April to close out the contract, the operations of the Exchange would be considerably curtailed. In order to expedite matters an ingenious method of closing up such transactions at any time regardless of time limit has been devised in the 'ring' system. For example, suppose that A sells 8,000 bushels of April wheat to B at \$1.34; B sells it to C the next day at \$1.35; C sells it to D at \$1.36; A, to close up his transaction, buys 8,000 bushels from D at \$1.37. All parties have now each bought and sold an equal quantity of April wheat, and A has lost three cents in the transaction. B, C, and D each made a profit; to close the transaction they form a ring with A, and he pays them their share of what they have made or what he has lost. B, C, and D each receive one cent a bushel from A, and all four are out of the transaction. Transactions may be settled by this ring device by a dozen persons or less who may have bought and sold April wheat and who are ready to close out.

"The margin required by brokers is five cents a bushel, or \$400 or 8,000 bushels, and the brokerage is one-fourth cent per bushel, or \$20 on the entire transaction of buying and selling a boat load.

"A lively day on the Produce Exchange is when wheat fluctuates in value more than two cents a bushel. The most violent fluctuation in wheat known in our Exchange during the last few years has been five cents a bushel. In Chicago the variations in the value of spring wheat, which is the staple of speculation there, are more extended.

Normal Clothing.

In the practical working out of his views on health—which seem to gain in favor with German physiologists—Prof. Jaeger, of Stuttgart, commends the so-called normal clothing, which, as he explains it, consists exclusively of wool, and especially fulfills the purpose of keeping warm the middle line on the front of the body. The general object is to prevent the accumulation of fat and water in the system, the Professor's leading principle being that the greater the specific gravity of the human body, the more it is able to resist epidemic diseases. To the well-known properties of wool, as regards moisture and heat, Prof. Jaeger makes a curious addition. He claims to prove that in our organization there are certain gaseous volatile substances, odorless, which are continually being liberated in the acts of breathing and perspiring, and have important relations to mental states. Two distinct groups appear—namely those of pleasure and dislike; the former substances are exhaled during a joyful and pleasant state of mind, and produce this state with heightened vitality if inhaled. Of the latter the reverse is true. Now, Prof. Jaeger contends that sheep's wool attracts the "substances of pleasure," while clothing made of plant fiber favors the accumulation of the offensive substances of dislike.

Sheriffs and Editors.

The sheriffs have just got through holding a convention in Austin, and have dispersed to their respective bailiwicks. There are several points of resemblance between the sheriffs and editors, one of which is, when they do their full duty they are apt to become very unpopular. When the sheriff puts a bad man in jail, and the editor puts him in his paper, it is hard to say at which of the two the aggrieved party has the biggest spite. Sheriffs do a great deal of work without any compensation except abuse, and so do editors. It is the duty of the sheriff to make himself disagreeable to all classes of citizens, even to those of high social standing. The journalist takes them off in his paper in his own happy style, but the sheriff takes them off—Huntsville, where the penitentiary is. While sheriffs help a great many people to get in, they also help them to get out—their purses, and pay up their taxes.

There is a very strong feeling of friendship between the editor and the sheriff. The sheriff is more apt than any other man to have an attachment for the press, but also for the type and other material. If the editor is worth anything, and can be leaved on, the sheriff is apt to have an attachment for him, too. But what is the use of a sheriff having an attachment for an editor, when it is a well known fact that it is very hard to sell an editor? Yes, there is undoubtedly a bond between the sheriff and the ordinary editor, but unfortunately it is a replevin bond, for double the amount of the property levied on.

A sheriff makes a most successful editor. We once had an illustration of this fact. We were connected with a journal in a neighboring city. It was a very good paper, but for some reason or other, it never made any money, although it made a great deal of fuss, and had considerable local influence, which may be inferred from the fact that it owed almost everybody in the town. It reminded one very much of the condition of affairs in Turkey. There was a change of administration every few months on account of financial complications. Whenever three men met in the town at least four or five of them had claims against the paper. Finally, the sheriff, having an attachment for it, took charge of it, and although he had no editorial experience whatever, in half an hour he realized more money from it, by sale at auction, than the proprietors had in ten years, so it will be conceded that when it comes to realizing money out of a newspaper, the sheriff is really one of us. —Texas Siftings.

A Nashville editor announced in his Saturday issue that his Sunday paper would contain a love story, the characters in which belonged to the best society in Knoxville. It told his paper well, and the story related to the unsuccessful attempt of a young woman named Retcar to win the affections of a young man who was already engaged to a young lady whom he subsequently married. As Retcar was only Carter, the lady's real name transposed, her brother appeared promptly with a horse-whip and administered a chastigation which confined the editor to his room. "Sympathy," says a local dispatch, "is with the newspaper man, as people believe he only wrote the story for amusement and to create a demand for his paper." And any young woman who objects to have her love affairs utilized for such a noble and commendable purpose has neither public spirit nor a proper appreciation of the absolute necessities of some editors. —Detroit Free Press.

—The Rev. Dr. E. L. Magoon, of Philadelphia, was robbed of a quantity of silverware recently, which was brought from England over a century ago. Lafayette had eaten from it.

RESCUED FROM DEATH.

The following statement of William J. Connelley, of Somerville, Mass. is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876, I was taken with a violent bleeding of the lungs, followed by a severe cough. I began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital, while there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars a doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALM FOR THE LUNGS. I laughed at my friends, thinking that I was incurable, but I got a bottle of my case was incurable, when, to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Disordered Lungs will be induced to take DR. WM. HALL'S BALM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles, and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared, and I shall soon be able to go to work." Sold by druggists.

The fortunate circumstances of our life are generally found at last to be of our own producing.

Shoppers.

—Wallace E. Parker loaded a car of stock and started for Rockfield, Dakota. Frank Burhauntz loaded a car of stock and household goods and went on the same train Tuesday.

—Deacon Bell has finally sold his house and lot and farm to George Grant, of Janesville. We understand Mr. Grant will put up a large factory for the manufacture of sugar cane syrup. This is what we need here, and let every farmer put in an acre or more of cane, and have his own syrup pure without eating glucose.

—Bowles & Manley are fitting up their store with a large stock of new goods.

—Town politics do not seem to wax warm this year.

—There will be a dime entertainment in the Congregational church Wednesday evening, April 12th. The programme will consist of the drama, "Out in the Street," and vocal and instrumental music. If the weather is stormy it will be postponed to the following Friday evening. Admission 10 cents.

—Every body is busy plowing and sowing. A year ago to-day everybody was wishing and hoping that the snow banks would melt away so they could get to work.

—F. N. Parker has sold his house and lot to parties in Clinton.

—D. Van Valen is about to erect a large shed for the display of his binders and reapers which he expects here soon.

—Ed. Mosley has secured the services of a wagon maker from Watertown.

—A. D. P. was glad to see he had so many friends while on the sick list, especially for the services of so many able M. D's. He was somewhat surprised at the diagnosis of Dr. Smith. If it had been "wind in the mouth" instead of "wind in the ear" the Dr. would have been nearer right.

—Last Friday evening, by invitation about twenty of Wallace E. Parker's young friends gathered at the house of his cousin May and passed a very social evening. They all very much regret his going away and wish Shoppers had the attraction for him that Dakota has.

—Shoppers' Amateur troupe will render the drama entitled "Out in the Streets" at the Congregational church Wednesday evening, April 12th. This will probably be the closing entertainment of the season, so all ought to improve their opportunity to attend. The darkey comedian will furnish plenty of fun for all.

—There was a very pleasant social gathering of young people at the home of Rev. E. L. Dresser last Tuesday evening, about forty were present and all seemed to enjoy themselves.

Workingmen.

Before you begin your heavy spring work after a winter of relaxation, your system needs strengthening and cleansing to prevent an attack of Ague, Biliousness or Spring Fever, or some other spring sickness that will unfit you for a season's work. You will save time, much sickness and great expense if you will use one bottle of Hop Bitters in your family this month. Don't wait. See another column.

Fairfield.

—Henry Cutter went to Chicago last week with eighty-six head of fat cattle. They brought him considerable wealth, some of them weighing thirteen hundred pounds.

—David Dykeman is preparing to build a new residence.

—George Palmerton is the newly elected superintendent of the Sunday school.

—Miss Hare, of Darien, opened the village school on Monday of this week.

Killing Alligators.

A Detroitier who has just returned from Florida after an absence of several months, was asked the other day if he had any fun with the alligators down there.

"Yes, sir—dead loads of fun," he replied.

"Kill many?"

"Well, I should say so!"

"How many did you ever kill in a day?"

"Three hundred."

"No! you didn't mean three hundred alligators in one day?"

"Yes, I do."

"You must have struck a rich spot, three hundred in one day! Where? What time did you begin?"

"Oh, about 10 o'clock in the morning."

"And how long did it take you?"

"About an hour."

"There was a pause, during which astonishment, incredulity and worse were visible on the faces of the crowd. Finally the man stepped forward and said:

"Did you use artillery?"

"No."

"A st. mill?"

"No."

"Dynamite?"

"May you'll tell us how you did it?"

"Yes, s-I talked 'em to death. Please call my office for pamphlets of Florida's resources, fruits, cereals, alligator people and hotel charges. Tra-la!"

—The Jers. Board of education recently charged a lady teacher, through the Principal, incompetency. The lady teacher put a counter charge that the reason a Principal thought her incompetent was because she wouldn't let him come with her; a lady teacher ret'd.—N. Y. Post.

THE ELECTION.

A General Cutting and Slashing Among the City Politicians.

The Spoils of Office Distributed About Equally Between the Contestants.

The Common Council Will Stand a Tie, with the Vote of the Mayor in the Hands of the Democrats.

Full Particulars of the Contest.

Yesterday's election passed off in this city very quietly, with but little excitement or boisterous conduct at the polls. There were as many "split tickets" at the polling places as there were candidates for the offices. At the time the polls closed, the voters proceeded to their homes, and the inspectors were untroubled for a time in the work of canvassing the result. At an early hour in the evening the Gazette office was crowded with a good natured and welcome gathering of spectators composed of both political parties, who had congregated for the purpose of hearing the result of the canvass. The returns from the city, and telegraph dispatches received from different points relating to the vote on the Judgeship, served to entertain the visitors and keep them in good humor. Shortly after eight o'clock the result in the city was announced, and while many anticipated the defeat of some of the candidates, there were some larger majorities given for some of the candidates than had been predicted. The tally sheets announced that the canvass stood as follows:

	First Ward.	Second Ward.	Third Ward.	Fourth Ward.	City.	Majority.

By this the Republicans of Janesville must be content with the offices of the City Clerk, City Attorney, Sealer of Weights and Measures, while the Democrats will rejoice with a mayor (the first one for some years), a Treasurer, and a Justice of the Peace. The result in the wards is more encouraging for the Republicans, still it cannot be called a victory, as we have lost one Alderman, one that should have been elected. Ald. Murdoch, of the First ward, and Ald. Nowlan, of the Second ward, both Republicans, have been returned to the council by good majorities, which is saying to them that the people appreciate the labors of these gentlemen, in their behalf. In the Third ward, the Republicans have elected Mr. D. E. Fife, who will take the seat of C. B. Conrad. The contested in the Fourth ward was a triangular affair, and ended in the defeat of the Republican nominee, and the election of Mr. P. J. Lemart, Democrat. The Fifth ward was given to the Democrats from the start, and of course, their nominee, Mr. B. J. Daly, was elected. This result makes the council a tie, as it is composed of the following members:

Republicans. Democrats.
C. A. Potter, Wm. Cox,
E. D. Murdoch, A. P. Robinson,
O. F. Nowlan, P. J. Lemart,
G. F. Hawes, J. B. Fitzgibbon,
D. E. Fife, B. J. Daly.

With Mayor Elect Croft, (Democrat), in the chair, thus giving the council to that party.

The Republicans elected J. C. Metcalf, L. C. Brownell, and Fenner Kimball, supervisors, while the Democrats elected Andrew Palmer and Ed. Rathern. For school commissioner, the Republicans elected C. L. Valentine, and the Democrats E. C. Smith. Of the constabulary force the Republicans take J. H. Taylor, A. K. Cutts, H. B. Kennerly, J. F. Drake, and the Democrats have, Orville Wright. To recapitulate, the Republicans have elected fourteen of the twenty-three officers, in the city, which, for the present, must satisfy their desire for victory. The highest vote polled in the city was that for city attorney, 1,609.

200 cases, crop of 1880, Ohio, fillers at 4 to 4 1/2 cents; assorted 6 to 6 1/2 cents, and wrappers 9 to 14 cents.

100 cases, crop of 1880, Wisconsin, at 2 1/2 to 3 cents.

OBITUARY.

NETTIE L. CARTER.

There was profound sorrow spread over the community last evening at the announcement that Mrs. Nettie L. Carter, wife of Mr. Harry G. Carter, was dead. This sad news was unexpected, and therefore all the more shocking, because it was not known to many that her condition was in anywise critical. One year ago last September she became seriously ill, and for a time her life was despaired of, but she recovered and, not, however, regaining her former health. Since then she had been more or less of an invalid, but there was nothing attending her condition to create any alarm. Two weeks ago she was prematurely confined, but had virtually recovered from that sickness when she was attacked by scarlet fever. It was one of the severest cases of that dreadful, and so often fatal disease, ever known in the city. During the last forty-eight hours of her life, Mrs. Carter was in a comparatively comfortable condition, although her physicians and her family could hardly indulge in the hope that she could recover; and despite the kindest and the most constant care and the best possible medical attention, she died at half past seven o'clock last evening, at the home of her father and mother, Mr. and Mrs. Charles B. Withington, in the Fourth ward.

The social circles of Janesville are deeply shocked by the untimely death of Mrs. Carter. She was a young lady of high social standing, of commanding beauty, and of many accomplishments. She had a strong hold on the confidence and respect of a very large circle of friends, and her sudden death in the bloom and purity of young womanhood and motherhood, will be felt as a personal loss to hundreds in Janesville. The husband, in the supreme hour of his affliction, and the father and mother, and sisters, and other relatives of the deceased, have the profound sympathy of this community for this great loss and heavy burden of sorrow.

The infant which has so early been left motherless, is in a feeble condition, and there are grave doubts as to its recovery.

The funeral services of Mrs. Carter will take place to-morrow afternoon at the home of Mr. and Mrs. Charles B. Withington, the services to be conducted by the Rev. D. F. Davies, of the Congregational church.

Death of Oscar Brooks.

There were a great many persons in the city surprised this morning to hear of the sudden death of Oscar Brooks, who has been somewhat of a prominent local character for years. Mr. Brooks had not been in good health for a long time, and visiting Dr. Davis, of Chicago, was told that he was afflicted with neuralgia of the stomach, from the effects of which he died, while others say that the cause of his death was valvular disease of the heart. Several times recently he had been suddenly taken ill, and two or three times death seemed to be almost certain. He was around yesterday and last evening, and retired in his usual health. Between twelve and one o'clock last night, he was awakened by severe vomiting, which awoke a servant girl in an adjoining room. She hastened to his bedside and found his nose bleeding profusely, and signs of death were rapidly appearing. His son Will was sent for, but before he reached his father, death had done its work.

Mr. Brooks came to Janesville in 1858, and has since resided here, and was a gunsmith by occupation. He was 51 years old. He leaves several children and among the sons, Frank Brooks, an attorney at Eau Claire, who has been informed by telegraph of the death of his father. It is thought at present that the remains will be taken to Cleveland for burial.

A New Building for Woodruff's Buckle Factory.

Among the many improvements and building projects that are contemplated this season, the new building for the Woodruff buckle factory is the largest yet announced to the public. This building will be erected on the corner of Franklin and Ravine streets, in the First Ward, and will be of the following dimensions: Front on Franklin street, 82 feet, extending back on Ravine 32 feet; three stories high, the first floor being ten feet, the second eleven, and the third 10 feet; adjoining the main building is a boiler room 16x20 feet. The structure is to be of red brick. The contract has been awarded and the work commenced. Mr. A. McDougal has the carpenter work, and James Shearer does the masonry. The building will be completed as soon as it is possible. This is but another evidence of the growing demand and popularity of the buckle manufactured by Mr. H. S. Woodruff, the great demand for which, has made it necessary to provide larger and more convenient rooms for its manufacture.

A Veteran Manager.

Forbes Dramatic company will be here on Saturday evening, and will play "Black Diamonds," at Myers Opera house. But speaking about Forbes, our exchange says:

"There is no question but theatrical managers are like poets—born, not made. Colonel Charles Forbes, who has been twenty years in the business, has had many ups and downs, but his tact, taste and quick perception of all that pleases the populace, his ready, easy management of his folks, and the profusion of printing used, prove that he came into the world as a manager, and did not acquire the attributes and accomplishments that have made him so far a success. Where all others have complained of hard times, want of appreciation, or absolute failure, Colonel Forbes has coursed up the winning post with the purse in his hand. His appearance reminds us very much of Burr Robbins, the most gentlemanly and intelligent showmen we ever met, and as we always like to meet successful men, it was a gratification to hold a lengthy interview

THE KIRK CLOTHING HOUSE.

Fred Sonneborn, the popular proprietor of the above named house, is daily receiving additions to his already large stock of spring and summer goods, making his store room a truly "surprise" to his many customers who call upon him. He is in receipt of many complimentary letters from former residents, who still patronize his merchant tailoring establishment, one received yesterday, from a customer in New York, says: "The suit is at hand, all right. You are the 'boss' on taking measures, for the clothes fit to a charm, and shall continue to patronize you in the future. I shall start for Europe in May, and will advertise your merchant tailoring over there by showing off the suit to good advantage. I wish you could go with me." Mr. Sonneborn has a large force of extra tailors at work in his custom department to keep up with his increasing orders, and yet he has one of the finest assortments of cloths for suits to be found in the West. In the ready made clothing, and furnishing departments, his stock is complete, and the public can find any article wanted at the very lowest prices.

It Is Worth Remembering

that nobody enjoys the nicest surroundings if in bad health. There are miserable people about to-day with one foot in the grave, when a bottle of Parker's Ginger Tonic would do them more good than all the doctors and medicines they have ever tried. See adv.

The Comedy Company.

Howorth's Comedy company appeared last night at Myers' Opera house, and gave a very creditable performance. The splendid views of Ireland which were put on the stage in panoramic form, were one of the many interesting features of the entertainment. Views similar to those exhibited last evening have been seen before in Janesville, but those shown by Howorth, are among the very finest ever seen here. The comedy part of the entertainment were some excellent specialties, all of which received applause and won recalls. Owing to the rainy weather and the fact that it was election night, the audience was not so large as it would otherwise have been.

Home and Juliet.

It is not very often our city is favored with the presentation of Shakespeare's plays by any of the few great artists America boasts of; but when it is, the opportunity is well improved, and so rare a treat as is to be afforded at Lappin's hall, Friday evening, will surely be appreciated by our citizens. Miss Coombs is supported by a superb company, and her appearance here should be the means of filling every seat in the hall. The following from the Baltimore Gazette, shows what a success her season just closed has been:

Miss Jane Coombs, one of the most cultured and eloquent interpreters of female character now adorning the American stage, closed the most brilliant engagement of the season at Ford's grand opera house last evening. At nearly every representation standing room was in demand.

"First a cough, carried me off, And then a coffin they carried me off in." This will not be your epitaph if you take your cough and Dr. R. V. Pierce's "Golden Medical Discovery" in time. It is specific for weak lungs, spitting of blood, night-sweats, and early stages of consumption. By all druggists.

The Weather.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.

The thermometer this morning at seven o'clock stood 40 degrees above zero, and at one o'clock at 43 degrees above. Cloudy, and raining part of today. For the Correspondent, day year the thermometer stood 16 degrees above.

WASHINGTON, April 5, 1 a. m.—The following are the indications for to-day:

Upper lake region, upper Mississippi valley—Partly cloudy weather and rain, easterly winds, lower barometer, falling followed by rising temperature.

—A dispatch from Madison states that the Supreme Court has selected N. B. Van Slyke, of Madison, and John Winans, of Janesville, as its representatives on the board of building commission, on the erection of proposed new wings to the State Capitol building. The commission is now completed, and consists of Governor Rusk, Secretary Timme, Treasurer McFetridge, Attorney General Frisby, E. W. Keyes, N. B. Van Slyke and John Winans. A meeting of the commissioners was held this evening in the executive office. Governor Rusk was elected president, N. B. Van Slyke secretary, and John Winans treasurer. The selection of Mr. Winans will be received with much satisfaction by all classes in Janesville.

Lord Byron in reference to a beautiful lady wrote to a friend—"Lady" has been dangerously ill, but now she is dangerously well again." American belles, when attacked by any of the ills that flesh is heir to, may be kept killing, and avoid being killed by taking Dr. R. V. Pierce's, "Favorite Prescription," which banishes feminine weaknesses, and restores the bloom of health. By all druggists.

—Mrs. Hannah Neyhart, widow of the late Peter Neyhart, died at six o'clock this morning, at her home on Cherry street in the Fourth ward. Mrs. Neyhart had been sick but a few days, and her death was undoubtedly caused from grief over the death of her late husband, who died last Thursday, and with whom she had spent many years of her life. The funeral will be held at the residence No. 50 Cherry street, at one o'clock Thursday, the pastor of First M. E. Church, Rev. D. J. Holmes will officiate.

—The light mist or twilight, continued this evening.

—Marshal Hogan & Skavlen captured two tramps.

—The sale of seats for "Black Diamonds" will begin to-morrow morning, at nine o'clock, at Prentice & Evenson's.

—Two tramps were before Judge Patten this morning, but upon a promise to leave the city, they were allowed to continue their pilgrimage hence.

—Deputy Sheriff Kenniston took Pete Johnson, the Finlandeer, to Waupun this afternoon, sentenced by the municipal court for burglary in the town of Turtle.

—The report which was current on the street this morning that Henry Wood, of Stebbinsville was dead, is not true. Mr. Wood is low with lung fever but at last accounts was still alive.

—Forbes' Dramatic company passed through Janesville this morning enroute for Monroe, where they have an engagement. They will open in Myers Opera house on Saturday evening of this week.

—John Jameson arrived at the county jail last evening, from Evansville, and was taken in on credentials furnished by Justice Mills, of that little village. He will tarry with the boarders of the county for fifteen days.

—When a man can carry the city of Janesville by a majority of 547, it is a cheering sign that his neighbors are perfectly willing to trust him—the authors of the secret circular to the contrary notwithstanding.

—S. Holdredge's delivery wagon horse ran away late yesterday afternoon, breaking the thills of the wagon, and damaging the vehicle belonging to Mark Collins. The horse was stopped near the mills, on the raceway.

—In the municipal court this morning, James O'Hara was brought up and fined \$150, with cost, amounting to \$37.12, making \$187.12, which he paid, and was released from further custody. This ends the better speculation of Pulker, Knowles and O'Hara.

—Captain H. A. Smith has leased the Janesville morocco factory for five years, the lease commencing on the first day of January last, since which time the Captain has had control of the establishment. Mr. Dwight, his father-in-law, and a practical morocco finisher, and leather dealer, is now associated with him. Mr. Hilt, formerly connected with the factory, will have the general supervision of the manufactory.

Whereas, I greatly wronged my wife by a notice in these columns, dated Sept 15, 1879, I hereby retract the same, praying forgiveness.
